

PROFESSIONAL EXTENSION POLES

Professional painters demand quality products that deliver results. Rubberset® offers two lines of durable, innovative extension poles that are built to perform. Constructed of top-quality fiberglass and aluminum, Rubberset® Extension Poles provide a strong, yet lightweight extension designed to make painting safer and more efficient without the hassle of ladders and scaffolding.

LOK™

- Locks securely into place with the push of the patented pin-locking mechanism.
- Limited lifetime warranty on the pin locking mechanism and can be changed or replaced if damaged.

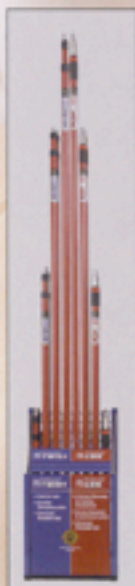

TWIST™

- Simply twists to lock tightly into place anywhere along the length of the pole.

Threaded to fit all standard roller frame handles the Rubberset Extension Poles are available in four different sizes: 2-4 ft., 4-8 ft., 6-12 ft., and 8-16 ft. for jobs of any size or scope.

EXTENSION POLES
